

KONI SPECIAL ACTIVE FOR 1990 – 2005 MAZDA MIATA

KONI is excited to introduce new KONI SPECIAL ACTIVE shock absorbers for the 1990-1997 Miata (NA chassis) and 1998-2005 Miata (NB chassis). These new applications feature KONI's patented FSD (Frequency Selective Damping) technology to simultaneously improve both the handling and ride comfort for owners of factory ride height Miatas, especially on bumpy roads. The SPECIAL ACTIVE's FSD will also greatly reduce "cowl shake" windshield and dashboard vibrations inherent in many open topped cars with less rigid chassis compared to closed cars with roof structures.

Brand/Model	Year	Product	P/N	Vehicle Position
MAZDA				
MIATA (NA)	1990 - 1997	SPECIAL ACTIVE	8045 - 1384	FRONT
			8045 - 1385	REAR
MIATA (NB)	1998 - 2005	SPECIAL ACTIVE	8045 - 1386	FRONT
			8045 - 1387	REAR

VEHICLE SPECIFIC PRODUCT MAY LOOK DIFFERENT.

SPECIAL ACTIVE

KONI SPECIAL ACTIVE is the next generation of premium shock absorbers that offer superior handling without compromising comfort. It is the latest advancement in the KONI product portfolio. Utilizing the most recent generation of KONI's patented FSD technology, it controls large body motions and cornering forces but smooths expansion joint and rough road impacts for improved comfort.

Features and Benefits

- FSD technology proven on over 1.5 million factory equipped vehicles
- Secure and stable feeling for spirited driving
- Unrivalled aftermarket solution can be fitted to most new and older cars
- Driving refinement for cars, light trucks, SUVs, etc.
- Technology that rivals expensive electronic systems
- Performance for driver and comfort for passengers in one
- Improves safety and road holding
