

## NEW APPLICATIONS FOR 2017 FIAT 124 SPIDER

After much anticipation, the new 2017 Fiat 124 Spider sports car is hitting North American dealerships now and KONI has externally rebound adjustable KONI Sport shocks ready for them. Fiat's sporty new 1.4 liter turbocharged convertible shares many specifics with its sibling 2016+ Mazda MX-5 including most of the suspension design. KONI has already tested and confirmed the 8241 1310SPORT front and 8241 1311SPORT rear shocks on some of the first 124 Spiders in North America. The soon-to-be-released higher performance package Fiat 124 Spider Abarth will also use the same KONI adjustable shocks.

Brand/Model	Year	Product	Front P/N	Rear P/N
<b>FIAT 124 SPIDER</b>				
Fiat 124 Spider	2017	SPORT	8241 1310SPORT	8241 1311SPORT

### SPORT

KONI Sport struts and shocks are the industry leader in externally adjustable damping, establishing the ultimate user control. By easily adjusting between a soft comfortable ride setting to a more firm aggressive ride, KONI Sport transforms the "daily driver" into the weekend track machine without hassle. With its very broad range of adjustability, KONI SPORT is a great choice to upgrade a stock, original equipment (OE) suspension or when matched with lowering springs and other performance upgrades for better handling and a more aggressive look and road feel. KONI Sport carries a limited lifetime warranty as with most KONI products.

### About KONI

As a part of ITT Motion Technologies, KONI develops, manufactures and markets high performance shock absorbers for many types of private and commercial vehicles including street and racing cars, trucks, buses, RVs and military vehicles as well as railway rolling stock. ITT Motion Technologies is the world leader in the development and production of brake pads and friction materials for the transport and automobile industry. [www.koni.com](http://www.koni.com)
