

KONI SPORT FOR THE '09-'16 MERCEDES BENZ E CLASS SEDAN, '10-'16 E CLASS

KONI proudly announces the Sport product for the 2009-2016 Mercedes Benz E Class sedan and the 2010-2016 E Class station wagon. KONI Sport brings improved performance, ride, and handling with adjustable damping to suit any driver. Sport works well with factory and performance lowering springs.

E Class Station Wagon (S212) excl. Airmatic DC, HD suspension & 4-matic AWD	2010-2016	SPORT	8741 1570SPORT	FRONT

SPORT

KONI Sport struts and shocks are the industry leader in externally adjustable damping, establishing the ultimate user control. By easily adjusting from KONI's vehicle specific baseline balance of comfort and performance up to 100% firmer, more aggressive handling and motion control, KONI Sport transforms the "daily driver" into the weekend track machine without hassle. With its very broad range of adjustability, KONI Sport is a great choice to upgrade a stock, original equipment (OE) suspension or when matched with lowering springs and other performance upgrades for better handling and a more aggressive look and road feel. KONI Sport carries a limited lifetime warranty as with most KONI products.
